CB

- ▶ [Wiuf and Hein, 1999] reformulated the CwR as a “spatial” process along sequences.
- ▶ [McVean and Cardin, 2005] modified this to produce a process for local trees which is Markovian along sequences.

Figure adapted from [McVean and Cardin, 2005]

- ▶ Sites between breakpoints exponentially distributed with rate ρL where L is the total edge length of the current local tree.
